

FAST FACTS

Building relationships with our clients, our associates, and our community.

Every project is different and every solution should be too, which is why you won't find a one-size-fits-all approach at T. Baker Smith. What you will find is a true partner to help you be successful no matter how complex or unique your challenge is. Plain and simple, we do what it takes to get the job done. That means collaborating with stakeholders across locations and practice areas throughout the entire project life cycle to tailor a solution to the challenge at hand. We do it with the safe, creative spirit we've used to make our clients successful since 1913.

WHAT SETS US APART:

Our associates become an integral and trusted part of your team and provide professional services in a diverse range of markets, at all stages from initial concept and financial feasibility to project completion and beyond.

TBS ensures success with tailored solutions due to:

- knowledge sharing via our project management plan system (PMP)
- alignment with our clients' needs across our practice areas via our integrated business model
- a century's worth of experience in creative problem solving
- depth and breadth of in-house resources and use of advanced technologies
