

# OFFSHORE

## A CENTURY OF SOLUTIONS

There is one thing we don't do at T. Baker Smith – shy away from a challenge. A century of experience has taught us that the offshore arena presents unique challenges every step of the way. We work collaboratively with clients to tailor each solution to the situation at hand because you need a partner you can trust, one who understands a harsh, demanding, and evolving environment – a partner with the expertise and equipment to get the job done safely. Year in and year out, we help countless exploration, production, and pipeline companies reach their goals, from the shores of Louisiana to the deep blue waters of the Gulf of Mexico. And we do it all using our creative, integrated approach across locations and practice areas.
